

Construction Insurance

Tailor-made policies for building companies

The Axis Insurance Group has a specialty team with in-depth knowledge and understanding of the construction industry. We have many clients in the industry, ranging from builders of single family homes to large commercial, office, and industrial buildings. This experience and knowledge means that we can make the insurance process an easy one for you and your company and you won't have to explain the processes and timelines of a building project.

Construction projects of whatever size can be complex and dangerous. While a building is being constructed the risks are many and varied – from raw materials to construction to owners and subcontractors. Insurance for projects can be complex and policies are needed in several discrete areas. These include Commercial General Liability, Course of Construction, Professional Liability, Property, Builder's Risk and Wrap-Up Liability Insurance.

Thanks to the experienced and knowledgeable team at Axis, we can guide you through the insurance buying process and ensure that the coverage you buy not only covers you in the way you'd expect, but also avoids nasty surprises if things do go wrong, and offers excellent value for money.

As you would expect, there are specialist insurers in the construction business which the Axis Insurance Group has developed very strong relationships with. We've worked hard to create insurance programs that address the specific needs of our clients in the construction industry. Our long experience and thorough understanding of the construction business means we can work with underwriters to create coverage which isn't overpriced and has the correct enhancements and special provisions needed. Securing the very best insurance for our clients is our core business.

For our clients who operate internationally, we are able to provide insurance on a worldwide basis thanks to our partnership with UNiBA partners – one of the world's largest networks of independent providers of risk management, insurance broking and employee benefits services. Our partnership with UNiBA Partners enables us to give our clients the benefit of strong and independent businesses that have local knowledge, as well as being committed to collaboration, partnership and top class customer service.

Benefits of Commercial General Liability Insurance coverage from Axis Insurance Group include:

- We have the market relationships and industry knowledge to get risks placed with the minimum of fuss.
- Our applications are accepted by all leading markets and are easy to understand and complete. They ask mining questions, not insurance questions.
- We have a full range of relevant policies – including course of construction, wrap up liability, builder's risk and comprehensive commercial general liability.
- We can audit your existing coverage – even the finest print – to ensure there are no surprise retractions, exclusions or onerous conditions.
- We have worldwide capability and experience.
- We design coverage to suit your particular needs. You don't pay for coverage you don't need.
- We can write coverage quickly, so you won't lose time when arranging permits.

To find out more about Construction Insurance, or to discuss your existing insurance policies, please give one of the Axis Insurance Group's professional and experienced team a call. We would also be pleased to outline the benefits of Construction Insurance with your management team or board members.
